PROFILE

Web Content & Marketing Technologist with over 4 years of professional experience supporting enterprise website operations, digital marketing, CMS/DXP publishing, frontend implementation, large-scale content migration, metadata governance, localization, DAM coordination, QA, and workflow optimization. Experienced in delivering customer-facing digital experiences for major product launches, global marketing initiatives, and CMS transformation programs across Adobe Experience Manager, WordPress, and Contentful. Hands-on experience with HTML, CSS, JavaScript, responsive design, UX, accessibility, SEO, web governance, and cross-functional digital delivery.

Open to remote and hybrid opportunities in frontend engineering, CMS/content systems, and web operations.

RELEVANT EXPERIENCE

Hogarth/WWP at Apple

Content Manager

Sunnyvale, CA | April 2025 - April 2026 | Full-time

- Supported enterprise CMS operations, web publishing, DAM coordination, metadata, localization, QA, and launch readiness.
- Coordinated localized global content, requirements, dependencies, publishing feedback, and brand consistency.
- Partnered with content and marketing teams on project intake, sprint backlogs, tickets, requirements, dependencies, and status visibility.
- Improved workflow visibility using internal product-management tools, API reporting, and LLM-assisted automation.

Woods Hole Oceanographic Institution (WHOI)

Frontend Developer

San Jose, CA | March 2025 - April 2025 | Part-time

- Debugged HTML, CSS, and JavaScript and refined responsive behavior and browser practices to support usability, consistency, and performance.

Gilberto Alejandro Haro

RELEVANT EXPERIENCE / CONTINUED

Robert Half International

Marketing Web Developer

San Jose, CA | April 2023 - November 2024 | Full-time

- Supported a multi-country Drupal-to-Adobe Experience Manager migration involving 30,000+ content items through content mapping, metadata validation, redirects, publishing standards, and QA.
- Contributed to website redesign and CMS transformation through content audits, structured content preparation, component authoring, migration validation, testing, and launch work.
- Supported cross-device UAT and QA across UX, accessibility, SEO, redirects, functionality, responsive behavior, and performance, recording issues in Jira.
- Improved production throughput through semi-automated tracking, standardized handoffs, and task visibility, helping advance the content migration timeline by six months.

DigitalNEST

Web Developer Specialist

Gilroy, CA | August 2022 - April 2023 | Full-time

- Developed, maintained, updated, and debugged WordPress client and internal websites, supporting operations, publishing, SEO, and frontend quality.
